

DO THE RIGHT WORK, ON THE RIGHT EQUIPMENT AT THE RIGHT TIME.

A NOTE FROM THE OWNER

In January of 2003 after working over 15 years at a local Paper Mill, I took a step of faith and left the only full-time job I ever knew to start Advantage Reliability Services. Hoping there was a market for honesty, integrity, real-world experience and going the extra mile on service I set out by myself being the Company salesman, Field Analyst and President while my wife, Renee' was my Chief Financial Officer. Throughout the years, we have slowly grown and now have 10 full-time employees. I am very blessed to have employees that exemplify these same values and level of service to help our clients reduce unscheduled downtime, unnecessary equipment repairs and increase their profitability.
